The exhibition, titled 'Calados Openwork' by Andres Monzon-Aguirre, was held at NCA's Tollinton block, featuring a variety of ceramic art pieces. The group show, inaugurated by Vice Chancellor, Prof. Dr. Murtaza Jafri, showcased works from both the college faculty and students, as well as a special contribution from the Colombian artist Andres Monzon-Aguirre.

Prof. Dr. Murtaza Jafri mentioned that cultural and art events are regularly organised at Tollinton block, since the administration has worked hard to restore it from it's previously dilapidated state and now, it hosts the Summer Camp as well.

The exhibition will captivate audiences until May 31st.
